SAP S/4HANA Cloud, Public Edition

Adopt Cloud ERP Quickly and Confidently

SAP

Choose the Best Way to Adopt Cloud ERP

Midsize businesses like yours face a continuous wave of change. Geopolitical tensions, rising energy costs, inflation, supply chain disruptions, and increasing rates for skilled labor elevate your challenges. Even so, you must find ways to grow the business and cut costs. Do you have the tools you need to meet these goals?

Choose the Best Way to Adopt Cloud ERP

Too often midsize businesses deploy technology that's built to solve discrete problems, lacks integrated systems, or relies on heavy administrative workloads.

To speed up your growth, seize new opportunities, and meet changing requirements, you need a modern cloud ERP solution. That's why we created GROW with SAP, a ready-to-run cloud ERP offering that lets you push your business forward with industry best practices, build your own

breakthroughs, grow without limits, and go live quickly with confidence.

This offering includes **products, best-practice support, adoption acceleration services, a community, and learning opportunities** to help you use SAP S/4HANA® Cloud, public edition with speed, predictability, and continuous innovation. GROW with SAP combines the benefits of advanced cloud technology with the industry depth enabled by our 50 years of experience.

Go Live Quickly with Confidence

Once you decide to move to SAP S/4HANA Cloud, public edition, you can use the proven guidance of GROW with SAP to implement with speed and predictability.

Growth Without Limits
SAP S/4HANA Cloud, public edition can scale and adapt quickly to meet your changing business requirements without adding complexity. It runs using industry best practices, supporting ready-to-go,

preconfigured processes that help you accelerate business growth and support ongoing innovation.

Because the software-as-a-service (SaaS) solution is continuously updated, your system remains current. Built-in security and regular compliance updates offer peace of mind.

Go Live Quickly with Confidence

Adopt and Scale Cloud ERP with Tools and Learning

The GROW with SAP offering delivers the essential products and services midsize companies need to leverage SAP S/4HANA Cloud, public edition and grow their business.

Expert Support Guides Deployment

When adopting a cloud ERP solution, expert support is invaluable. Our trusted partner ecosystem offers in-depth expertise and extensive project experience, helping you get the most from your cloud ERP solution while enabling a smooth deployment.

The GROW with SAP offering includes packaged activation services. With these services, experts support ready-to-run processes, helping you avoid surprises and realize value in the shortest possible time.

This initial setup activity eases the most common startup requirements and helps eliminate the risk of delay. Our experts guide you on a quick path to adopting best practices, speeding your deployment timeline, and improving time to value.

SaaS Offers Predictability

GROW with SAP helps you meet your budget requirements without financial surprises or delays. You can start with the right solution to fit your company's size and business needs at a predictable cost and within an expected time frame.

With SAP S/4HANA Cloud, public edition as the technology foundation, GROW with SAP helps ensure business continuity and minimized disruption.

Go Live Quickly with Confidence

Adopt and Scale Cloud ERP with Tools and Learning

Get up and running quickly with support from powerful tools and deployment experts.

Adopt and Scale Cloud ERP with Tools and Learning

GROW with SAP includes advanced technology and training, so you can build your own breakthroughs and meet changing business needs.

Optimized Processes Boost Efficiency

You can use AI-driven bots and low-code/no-code development tools to automate and optimize specific business processes. These tools require minimal assistance from IT experts, making them useful for many types of users.

By freeing up time from time-consuming tasks, the solution helps you empower skilled workers to take on more valuable activities. Instead of managing your cloud environment, they can focus on differentiating your business and accelerating innovation.

Community Access and Training Develops Knowledge

The GROW with SAP offering includes access to SAP Community. In this official user community, SAP® software users, developers, consultants, mentors, and students share ideas, learn, innovate, and connect with others. You can explore technology topics, ask questions, and engage with other members to collaborate on ideas and learn about the cloud.

As part of GROW with SAP, you can also access technical training on the SAP Learning site. Our portfolio of learning offerings includes role-specific resources that help users build cloud skills with flexible digital learning formats and content.

Adopt and Scale Cloud ERP with Tools and Learning

A Clear, Structured Process Helps You Start Fast
To guide you along your activation journey, GROW with SAP includes the SAP Activate process. This innovation-as-a-service methodology includes self-service tools that help you choose how to adopt and extend new and differentiating capabilities across your organization.

An Agile Innovation Platform Empowers Developers
SAP S/4HANA Cloud, public edition runs on SAP Business Technology Platform (SAP BTP), our unified, business-centric platform where developers can build, integrate, and collaborate with one another. Everyone from experienced coders to citizen developers can build applications and business sites rapidly. They can also use SAP BTP to automate processes without coding.

Developers can integrate business data across both SAP and third-party systems using hundreds of prebuilt components and connectors plus extensive business content.

With SAP BTP, developers can collaborate across your business. The platform also enables teams to deliver new innovations quickly and more securely than ever before.

Go Live Quickly with Confidence

Adopt and Scale Cloud ERP with Tools and Learning

SAP BTP offers developers at multiple levels the technology they need to support innovation, automation, and differentiation.

Innovate Faster and Improve Business Agility

The GROW with SAP offering helps you adopt cloud ERP confidently, so you can quickly realize the value of SAP S/4HANA Cloud, public edition.

With this offering, you can realize the following benefits:
- Scalability, thanks to a cloud solution that supports current industry standards, innovation, and continued business growth
- Simplicity, with support for best practices and services that help you get up and running quickly

- Predictability, using a SaaS model that meets your business and budget needs while enabling business continuity and minimizing disruptions
- Efficiency, by using advanced tools to optimize business processes and grow your business
- Help at your fingertips, with the support of an active user community and training tailored to your needs
- Business agility, using an agile innovation platform that allows developers to rapidly build, integrate, and collaborate

In a time of global uncertainty, you must manage precious resources effectively. GROW with SAP gets you started.
